SUMMARY

Aspiring Product Manager with 7.5 years of total work experience in business analysis and academia, including 3+ years as a Business Analyst translating business and user needs into solutions. Trained in AI-First Product Management, with hands-on experience in user research, problem framing, prioritization (RICE, MoSCoW), PRDs, solution design, North Star metrics and go-to-market planning. Built and deployed an AI voice product end to end, from research to live usage analytics. Founder of a food brand, demonstrating customer-centric thinking, ownership and execution. Seeking an Associate Product Manager or Product Manager role to work with cross-functional teams, turn user needs into actionable product solutions and contribute to product strategy, execution and growth.

SKILLS

Product Management: Product Requirements Documents (PRD), User Research, Survey Design, Competitor Analysis, User Personas, User Stories and Acceptance Criteria, Prioritization (RICE, MoSCoW), A/B Hypothesis Framing, North Star Metrics, Go-To-Market Planning, Product Roadmaps, Market Sizing (TAM/SAM/SOM)

Business Analysis: Requirements Elicitation, BRD, FRD, SRS, RTM, RACI Matrix, Business Case, Stakeholder Analysis, UAT, Change Requests, Agile Scrum, Waterfall

Tools: JIRA, Confluence, SQL, PostgreSQL, Power BI, Tableau, Figma, Wireframing, Axure, Balsamiq, MS Visio, StarUML, Replit, Deepgram Voice AI, Microsoft 365 Copilot, Microsoft Teams, Cucumber Studio (Gherkin), Microsoft Office

PROJECTS

OutLoud – AI Speaking Coach for Interview Readiness *Replit, Deepgram Voice Agent API, PostgreSQL*

- Identified and validated a product opportunity through two primary surveys (80+ respondents combined), synthesizing three core insights that reframed the problem from "English ability" to "composure under real-time evaluative pressure".
- Authored a full PRD covering problem statement, 3 user personas, 9 user stories with acceptance criteria, success metrics and scope boundaries; ran a competitor analysis against 5 existing tools (ELSA Speak, Speak, Yoodli, Cambly, EngVarta).
- Designed and shipped a working product solo using Replit, integrating Deepgram's real-time Voice Agent API for live two-way voice conversation; independently diagnosed and resolved a WebSocket authentication blocker that had stalled the build.
- Defined a North Star metric (Week 4 Practice Completion, 40%+ target) and 4 leading indicators; built a live admin analytics dashboard from the production PostgreSQL database covering activation, retention and engagement.
- Recruited real early testers through a structured go-to-market and outreach plan, logging 53 signups and 27 practice sessions; used real usage data to validate and refine core product assumptions.

PM Case Studies – Airtribe AI-First Product Management, 2026

- Zepto (Average Order Value): ran a primary survey (23 respondents), segmented users, identified 12 blockers, prioritized with RICE and wrote the problem statement; delivered a 15-slide deck.
- Uber (Smart Pickup Coordination): sized the market (TAM/SAM/SOM), ran a 25-response survey, built a user persona and interview guide, and wrote a prototype prompt with India-specific regulatory context.
- Gamyam / TGSRTC: evaluated six usability issues against UX Laws and Nielsen's Heuristics. Learnfinity: built a B2B strategy with competitive analysis, a three-year roadmap and a pricing model.

WORK EXPERIENCE

Founder and Product Owner **Nov 2025 – Present**
Elim Foods *Hyderabad, Telangana*

- Own the product end to end, from the value proposition (handcrafted, natural, preservative-free) and pricing to launch, customer feedback and the improvement roadmap.
- Took the product to market in Nov 2025 and grew it to 50+ delivered orders across Andhra Pradesh, Telangana and Tamil Nadu, plus overseas customers.
- Tracked retention through repeat orders: returning customers placed 2 to 6 orders each, which showed the product meets a real need beyond first-time trial.
- Planned content and social media promotion tailored to Indian customers to build awareness and drive orders.

Senior Business Analyst **Feb 2024 – Jul 2025**
SoulPage IT Solutions Pvt Ltd *Hyderabad, Telangana*

- Ran business needs assessments with the Sales team that shaped an IT strategic plan aligned with organizational goals.

- Acted as the key link between global clients and the development team, giving regular project updates and keeping communication open.
- Took part in product planning and gave insights for modeling; captured and documented elicited requirements for analysis.
- Wrote BRDs from requirement documents and translated them into FRDs and SRS documents; also produced user manuals, product documentation and version-control documents.
- Supported testing by preparing test case scenarios and making sure UAT was successful.

Assistant Professor (Business Analyst) **Jan 2023 – Aug 2023**
Sreenidhi Institute of Science and Technology *Hyderabad, Telangana*

- Gathered requirements from stakeholders using multiple elicitation techniques.
- Wrote user stories with acceptance criteria and managed the product backlog in JIRA.
- Prioritized and validated requirements using MoSCoW and FURPS, and planned sprint backlogs in that order.
- Worked with the Product Owner and Scrum Master on business value and complexity points, and on the Definition of Ready and Definition of Done checklists.

Assistant Professor (Business Analyst) **Oct 2017 – Jan 2023**
Malla Reddy Group of Institutions *Hyderabad, Telangana*

- Conducted enterprise analysis, wrote the Business Case Document and prepared stakeholder analysis and a RACI matrix.
- Gathered requirements from business heads, wrote the BRD, translated it into an FRD and prepared the SRS with the technical team.
- Created UML diagrams and wireframes in MS Visio and Axure; maintained the RTM throughout the project.
- Prepared test case scenarios with the testing team and ensured successful UAT.

EDUCATION

Program in AI-First Product Management Program **June 2026 batch**
Airtribe

Hands-on PM program covering research, PRDs, presentations and prototypes across multiple product case studies; capstone OutLoud shipped as a live AI voice product.

Master of Technology (M.Tech) **2013 – 2015**
Karunya University, Coimbatore

Bachelor of Technology (B.Tech) **2009 – 2013**
G Pulla Reddy Engineering College, Kurnool

CERTIFICATIONS

Certified IT-Business Analyst (IIBA EEP) **2023**
COEPD
